

It helped me score 99/100 in my X Board exam...My outlook of Science and Mathematics broadened after this program.

Aditya P Gaonkar,
Vijaya High School – State Board
Now at IIT Chennai

It literally made school academics easy, expanded my vision about knowledge and ways to learn new things.

Unnathi Bhat,
Kendriya Vidyalaya, Railways
Currently in 2nd year Foundation SnT

It helped in two ways. One, it helped do well in X CBSE exam. Abhishek stood second in school overall and ninth in state. Second, it helped develop a competitive spirit.

Balakrishna Adiga,
Father of Abhishek Adiga,
Sri Kumaran's High School – CBSE
Now at BITS Pilani

Engineering Medicine Pure Sciences

The material with details on the subject and quotes from famous personalities sow the seed for a future scientist and an inquisitive mind.

K Soundararajan,
Father of Priya.S,
National Public School – Rajajinagar
Now at IIT Rourkela

BASE is a place where you can actually come and learn something, not just for doing better in your exams, but just for pure learning.

Sri Aurobindo Memorial School,
Bangalore
Currently in 2nd year Foundation SnT

Now Available Right in Your Home through

How is BASE@Home Enabled?

↓
Classes will be conducted based on pre-scheduled time table

↓
Students will log into the class through Internet at class time

↓
BASE faculty will conduct the class from BASE facilities

↓
Clarifications are addressed by the faculty in real-time

The leader in student training has now come much nearer to you - in fact, right into your home!

Discover BASE@Home training programs, that bring BASE's legendary training standards beyond the classroom - and right upto your doorstep through innovative use of technology and powerful multimedia tools. BASE uses the power of the Internet to deliver the same learning experience of its classroom programs, which means students far away can benefit from interactive learning - much the same way as in classroom learning!

P.S.: A student needs to own or have access to a computer with Broadband Internet connection.

Be Ahead with Sustained Excellence

Because,
Future is Bright,
If Fundas are Right.

Be Ahead with Sustained Excellence

Class IX: Right Time for Foundation

It is natural for students moving up into Class IX, to set sights on Class X board exams. And it is natural as well that they start considering career options... engineering, medicine, pure sciences... While it is natural to work towards a definite goal in today's competitive world, it is more important to build the foundation - NOW!

Future is Bright, if Fundas are Right

Only a proper foundation can enable conceptual clarity of core subjects and problem solving abilities across applications. This foundation can be the base on which students can build success in board exams and competitive examinations like IIT-JEE, AIEEE, CET, AIPMT...

Foundation SnT:

Enabling Conceptual Clarity & Problem Solving Abilities

Foundation SnT at BASE is a 2-year value-add program for students of Class IX and X. It supports the regular studies of the students by imparting additional inputs in core subjects. The program inculcates analytical thinking habits and brings home the importance of innovation in problem solving. It also helps students to prepare systematically for competitive exams like IIT-JEE, AIEEE, AIPMT, CET, Olympiads etc.

Course Components

Course Content

Subjects taught include Physics, Chemistry, Biology, Mathematics and Mental Abilities. The course on Mental Abilities helps in improving thinking agility and enhances learning capability in other subjects. In addition, relevant techniques from vedic mathematics and speed mathematics are introduced. The curriculum has been designed considering the syllabi of Karnataka State Board, ICSE and CBSE.

Printed Courseware

Printed courseware is provided for all subjects and covers related topics along with adequate worked examples and practice exercises.

Online Learning Platform

- Online Learning Platform will make available conceptual videos for revision of each chapter, quizzes, tests, solutions to exercises and information on learning methods.
- Online solutions help students understand the approach to solve problems.

SnT
Foundation
2-Year Program
For Class IX Students

Program Offered through:

- Classrooms at BASE centres
- BASE@Home
- Distance Learning Program

- Discussion forum is an open space for students to interact with teachers and clarify doubts.
- Online platform provides students the opportunity to upload the experiments they try out.

BASE @ CET 2011

CET Engineering
9 in Top 10!
Including Ranks 1 to 7

Interactive Sessions

Each classroom session is planned to be interactive and is supported by multimedia presentations and experiments. Training will be imparted by our highly trained faculty members, who are fully aware of the expected performance levels of different competitive examinations. The accent is on understanding of subjects, appreciating the finer aspects and effective problem solving. Additional learning support is provided through video sessions.

Course Structure

The training schedule is designed for convenience: during summer vacation and later when the schools reopen, on weekdays/weekends. The total interaction time during the 2-year program is 400 hours.

Aligned to Board Curriculum

Foundation SnT is aligned to the board curriculum. In fact, student batches will be formed based on central or state boards. Board support materials are specially designed to help students perform better. **Over the last couple of years, toppers across boards in Bangalore, have been Foundation SnT students.**

Assessment

Periodic tests will be conducted to evaluate learning and a detailed performance analysis is given to help the student identify his/her strengths and weaknesses and work on them. To excel in school curriculum, there will be 3 practice tests on board examinations pattern in Class X. There will be periodic on-line tests as well. Through a unique user ID and password, parents can check the progress of their children at the program.

Seminars

To facilitate self-learning, seminars will be conducted all through the year. These sessions, handled by students in groups of 4 or 5, will enable conceptual learning in an interactive way.

Funda Champs

"Funda Champs" is an annual competitive event, wherein selected students will, in team situations, work towards solving problems of unusual complexities.

Selection Criteria

Admission to the program is based on a selection test that will evaluate the student's observation, comprehension, analytical reasoning and numerical skills.

11 students
from BASE are
KVPY awardees 2011!

Career Possibilities: A Bird's Eye-View

If you are desirous of building on your passion and aptitude for sciences, here is a broad overview of the career possibilities. This is by no means a comprehensive guide; it is designed to kindle the fire of ambition in you and inspire you to achieving your career goals.

Technology

There is hardly a sphere of life that is untouched by the magic of technology. Technology in the Digital Age has constantly been redefining the way people round the world live, play, learn and entertain. And quite frankly, experts say, this is only the beginning. You too can join the party and leave behind your footprints in the sands of time!

So, where do you start? After your Class XII, institutions where you can study engineering/technology include the IITs (15 of them across the country), the NITs (one in each state), BITS Pilani, IIST, colleges in VTU, ... And the range of options in branches is mind boggling!

After BE/ B Tech., if you wish to pursue higher studies, you can opt for either M Tech./ MS and go further towards Ph.D or branch off to study MBA.

Medicine

A progressive country is all about healthy people. For a country of 100 crore people, healthcare will always be top priority. In fact, there are just 4.5 physicians per 10000 persons in India. And as we step into the future where medicine, married with technology, is poised to usher in dramatic advancements in disease treatment and wellness, the need is for a new generation of medical professionals with commitment, passion and innovation.

BASE @
Medical Entrance
2011

- CET Medical 5 in Top 10,
18 in Top 100
- AIPMT 8
- CMC 2
- St. Johns 1

If you are keen on studying medicine after Class XII, you could work towards making it into one of the top medical institutions that include AIIMS, JIPMER, AFMC, MGIMS, CMC Vellore, St. Johns and several other reputed colleges in Karnataka.

After MBBS, you can pursue MS or MD or research in frontier areas .

Pure Sciences

Reap what you invest in research. This is true as much of a multinational company as it is true of a nation. India, has well and truly arrived, in the field of research. Always a country that has prided on its original thinkers and mathematicians, India has several institutions of national importance that are strategically focused on defined areas of research. Be it agriculture or microbiology or astro sciences, there are great institutions that can nurture your intellect and create further opportunities for higher learning. These include IISc., TIFR, IISER, IIST, IITs, NDRI, ISI, ...

Those who pursue pure sciences with passion and commitment can aspire to careers in academics or research, worldwide. If inventions and innovations excited you as a child, they could very well be your life's big treasures in time to come.
